

Project:Stage 1

Publication date: 24 jun 2014

Purpose:

Give insight in the possibilities of the report templates.

Document properties:

-  0.1 Initial version
-  Missing sub processes
-  0.2 Add sub processes

1.1 Business Services

A business service is defined as a service that fulfills a business need for a customer (internal or external to the organization).

ToDo Needs more investigation

Business Process 1

A business process is defined as a behavior element that groups behavior based on an ordering of activities. It is intended to produce a defined set of products or business services.

[1.2 Baseline situation](#)

Business Process 2

A business process is defined as a behavior element that groups behavior based on an ordering of activities. It is intended to produce a defined set of products or business services.

Business Service

- R** A business service exposes the functionality of business roles or collaborations to their environment.
- R** The functionality of a business service is accessed through one or more business interfaces.

1.3 Target situation

You can add questions that needs to be addressed by adding `_Question` in the property tab.

You can print only a part of complete repository by defining "`_Project`" property with an appropriate name for that project for every view you wanted.

After that you can print only the project pages by defining a Jasper report title that start with `Project:` following by the name you yosen for the `_Project` property.

You can add more than one `_Project` property.
